

## Advanced Search Platform for Salesforce®

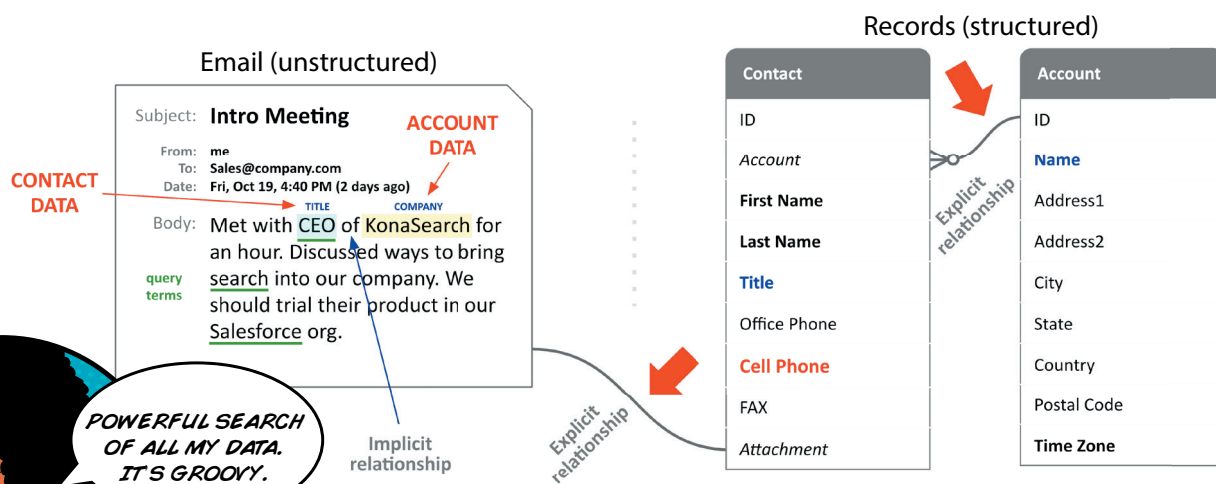

- Search any data, document, and source without leaving Salesforce
- Deep search of objects and documents together for better relevancy
- Matching engine for best-fit analysis
- Automating processes through lights-out search

## Kona Studio

Salesforce administrators easily chain together repetitive tasks:

- **Legal Matter Management** - searching case material based on specific criteria
- **Applicant Tracking Systems** - finding the best candidate first and matching them to the job orders
- **Order Fulfillment Automation** - automatically extracting order information from purchase orders
- **Private Equity** - searching portfolio documents as part of the performance data
- And much more as search pages in Salesforce

## Search structured and unstructured data at the same time.

POWERFUL SEARCH OF ALL MY DATA. IT'S GROOVY.

# KonaSearch Advanced Search Platform

Search is a fundamental component of many solutions built on Salesforce, all the more reason to optimize your search capabilities.

### Executive recruiting

Quickly finds the best candidates from a database of nearly 500,000 resumes.

### Branded merchandise

Enables deep OCR search into thousands of presentation slides in Salesforce to create new presentations with a single click.

### Pharmaceuticals

Matches product information requests to knowledge base answers, saving staff hours of manual search.
